Technical Customer Support Engineer | Customer Success & Troubleshooting

PROFESSIONAL SUMMARY

Detail-oriented B.Tech graduate in Information Technology with a strong technical background and a problem-solver's mindset. Confident communicator skilled at translating complex technical issues into clear, understandable solutions for users. Adept at building rapport, ensuring high customer satisfaction, and collaborating across engineering and technical content teams to optimize support documentation. Highly adaptable, self-motivated, and fully **flexible to work night shifts** to support global/domestic operations.

CORE SKILLS

- **Customer Support:** Inbound/Outbound Voice Support, Customer Rapport Building, Issue De-escalation, First-Time-Resolution (FTR) Focus
- **Technical & Troubleshooting:** Python, SQL, REST APIs, Cloud Infrastructure (AWS), System Debugging, Data Analysis
- **Collaboration:** Cross-functional Communication, Technical Documentation, Content Gap Analysis
- **Soft Skills:** Confident & Clear Communication, Active Listening, Analytical Reasoning, Quick Learner

INTERNSHIP EXPERIENCE

AWS Intern | BrainOvision | 2024

- Engaged in cross-functional technical team discussions to streamline system monitoring, accelerating resolution times for infrastructure issues.
- Actively documented technical learnings and system insights, identifying knowledge gaps to improve shared team documentation.
- Developed clear, professional communication habits by presenting technical updates and collaborating effectively in a fast-paced environment.

KEY PROJECTS

AI-Powered Code Review Assistant | Python, GPT-4 API | Jan 2025 – Apr 2025

- Built an automated pipeline that parses unstructured data into clean, repeatable reporting formats to maintain quality standards.
- Documented system behaviors and feedback patterns to improve future troubleshooting workflows and knowledge sharing.

FaceTally – Web Application | Python, Flask, OpenCV, Firebase

- Monitored system performance dynamically during deployment, identifying and resolving core execution issues to ensure user satisfaction.

Student Result Management System | Python, Tkinter, SQL

- Designed a structured desktop application, collaborating effectively with teammates to debug technical glitches and deliver a bug-free system.

EDUCATION

- **Bachelor of Technology, Information Technology** | Sir C. R. Reddy College of Engineering | CGPA: 7.79 (2021-2025)
- **Intermediate (MPC)** | SASI Junior College | 91.9% (2019-2021)
